PROFESSIONAL SUMMARY

Results-driven IT Engineer and Full Stack Web Developer with 2+ years of hands-on experience in Full Stack Development, IT Support, Technical Support, and ELV Low-Voltage Systems. Proficient in building responsive web applications using Django and React with REST API integration. Experienced in Help Desk Support, Desktop Support, Windows 10/11 troubleshooting, remote desktop assistance, network configuration, TCP/IP, LAN/WAN, Office 365, and Active Directory administration. Holds UAE ADMCC Certified ELV Technician License covering structured cabling, CCTV installation, and low-voltage systems. Strong problem-solving, communication, and customer service skills. Multilingual and available immediately in Abu Dhabi, UAE.

EXPERIENCE

•LabEzra Technologies LLC

Abu Dhabi, UAE

Full Stack Developer and IT Support Technician

Jun 2023 – Present

- Developed 5+ responsive web applications using React, Django, and JavaScript with REST API integration, optimized for cross-browser compatibility and mobile-first responsiveness
- Built a full-featured POS Billing System handling invoice generation, payment tracking, and PDF export, reducing manual billing time by 60 percent
- Engineered a corporate website with clean UI achieving fast load speeds and polished client-ready delivery
- Provided Help Desk and Desktop Support covering Windows 10/11 troubleshooting, software installation, remote desktop assistance, Office 365 administration, and hardware maintenance for 10+ users
- Configured and maintained LAN/WAN networks, TCP/IP settings, VPN, and network devices ensuring stable connectivity across the office
- Managed Active Directory user accounts, permissions, and Microsoft Outlook setup for staff onboarding and offboarding
- Coordinated ELV infrastructure tasks including 3+ CCTV installations, structured cabling, and low-voltage systems in compliance with UAE ADMCC standards
- Managed version control workflows using Git and GitHub across all development projects, leading clean team collaboration

•Alisons Informatics (P) Ltd.

Kerala, India

Full Stack Python Intern

Jan 2026 – Mar 2026

- Spearheaded a 2-month internship in a professional agile development environment focused on Full Stack Python
- Executed 3+ live projects using Django, HTML, CSS, JavaScript, and SQL database management
- Collaborated with a team of 5 developers to implement new features, resolve application issues, and meet sprint deadlines

PROJECTS

•POS Billing System | Django, Python, SQLite, HTML, CSS, REST API

2024

- Built a complete billing and invoice management web application using Django with user authentication and role-based access control, reducing manual processing time by 60 percent
- Implemented invoice generation, payment tracking, and PDF export for small business workflows

•E-Commerce Platform | EJS, Node.js, JavaScript, CSS, Responsive Design

2024

- Developed a dynamic e-commerce web application with product listings, shopping cart, and checkout flow using server-side rendering
- Designed mobile-first responsive layouts ensuring consistent user experience across all screen sizes

•Corporate Info Website | React, JavaScript, Bootstrap, HTML, CSS, REST API

2023

- Designed and developed a fully responsive corporate website with React components and Bootstrap for mobile-first layouts
- Optimized page load performance and cross-browser compatibility delivering a polished client-ready product

•E-Commerce and Branding Package | HTML, CSS, JavaScript, Canva, Adobe Tools, Graphic Design

2024

- Created and delivered a complete digital branding package including promotional posters, social media graphics, and visual identity for a clothing brand
- Developed a fully functional e-commerce website enabling online sales and increasing client digital presence
